***** We do not host any film streaming. We are only one media file search engine.) Guidelines to Share Free/ Free Download Movies or TV Shows; * Always remember to provide your real name and link back to this site and forum when sharing movies. It's not only against the forum rules but it's the law. * When using our embed codes or link back codes, the link and source must be LIVE. * All files can only be shared in free or non commercial media sharing websites. * Don't forget to share and make sure all friends get a chance to watch the best free movie! * Keep sharing and we keep finding new ways to keep bringing you the best of the best new movies from all over the world!(a) Field of the Invention The present invention relates to a liquid crystal display. (b) Description of Related Art A liquid crystal display ("LCD") includes two display panels on which field generating electrodes such as a pixel electrode and a common electrode are formed and a liquid crystal layer interposed between the two display panels. The LCD displays a picture by applying a voltage to the field generating electrodes to generate an electric field in the liquid crystal layer, which determines alignment of liquid crystal molecules of the liquid crystal layer, and by controlling polarization of incident light. An LCD includes a plurality of pixels in a matrix configuration, each of which has a pixel electrode connected to a thin film transistor ("TFT"). A common electrode is formed on the color filter substrate and a plurality of common wirings are formed on the common electrode. One end of each common wiring is connected to a gate of the TFT and the other end of each common wiring is connected to a common voltage. A gate-on voltage applied to the gate of the TFT is applied to the common wiring when a scan pulse is applied to the TFT, and a data voltage is applied to the pixel electrode through the TFT when a data pulse is applied to the common wiring. In an LCD, a voltage applied to the common electrode 82157476a
